## Forum on Meeting the new PCI DSS Guideline in the Cloud

**JULY 20  
2016**

**9:00AM  
to  
5:00PM**

**DBI LAGOS CAMPUS: 1, NITEL Road  
(Former NITEL Training School) Cappa bus stop, Oshodi**

## Description

The Payment Card Industry Data Security Standard (PCI DSS) is a widely accepted set of policies and procedures intended to optimize the security of credit, debit and cash card transactions and protect cardholders against misuse of their personal information. The PCI DSS was created jointly in 2004 by four major credit-card companies: Visa, MasterCard, Discover and American Express.

This workshop entails meeting the new PCIDSS (Payment Card Industry Data Security Standard) requirements when using a Cloud Service Provider. These are requirements as recommended by the Payment Card Industry Security Standards Council (PCISSC).

This standard has become a global requirement starting from June 30, 2015. Non-compliance can be severe for an organization and it can lead to removal from payment card echo system.

## Target Population

This workshop targets Lawyers, Engineers, Internal Auditors, IT Audit Directors, Corporate Security Officer, Internal Security Chief, Internal Security Auditor, Director of Security, Legal Professionals, Audit Managers, Business Analyst, Compliance Officer, Credit Analyst, Finance Manager, IS Manager, IT Specialist, Project/Program Manager, Risk Management Analyst, Security Analyst, Senior Developer, Software Engineer, System Administrators and Web Master.
